

Incinerator Gallery

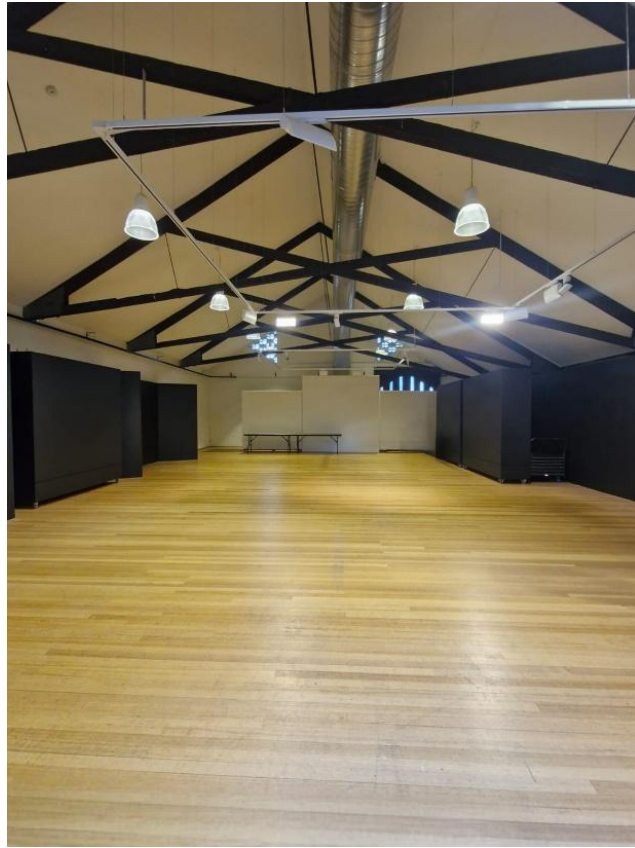

Boadle Hall 2026 Floorplan:

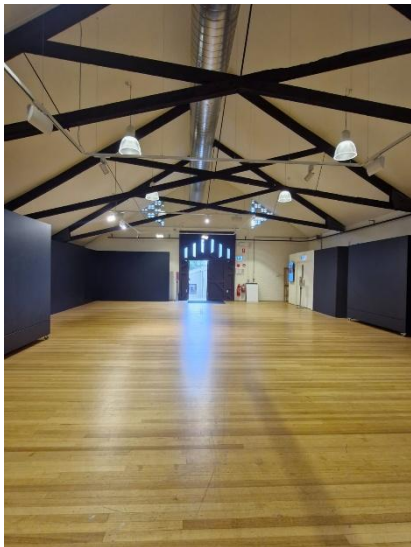

The Boadle Hall is located within the historic building of Incinerator Gallery, with access to the historical original Incinerator site below the building. The artist is invited to respond mainly to the space highlighted in blue using various form of artworks, including, but not limited to, gallery wall hang, sculptural, installation, interactive installation, sound, light, performance, etc.

Hanging options for lightweight artworks are possible, however the artist is encouraged to visit the gallery and speak to the Exhibition Programs Curator while planning.

The Boadle Hall is great for sound work, performance, and interactive artwork.

Boadle Hall view from main entrance – Boadle Hall is an open space equipped with moveable walls that can be reconfigured according to the exhibition design.
