

Incinerator Gallery

Main Gallery 2026 Floorplan:

The artist is invited to respond mainly to the space highlighted in blue using various form of artworks, including, but not limited to, gallery wall hang, sculptural, installation, interactive installation, sound, light, performance, etc.

Hanging options for lightweight artworks are possible, however the artist is encouraged to visit the gallery and speak to the Exhibition Programs Curator while planning.

The Main Gallery can be divided into two smaller exhibition space for two different artist's projects. The Incinerator Gallery will decide on this after the discussion with selected artists.

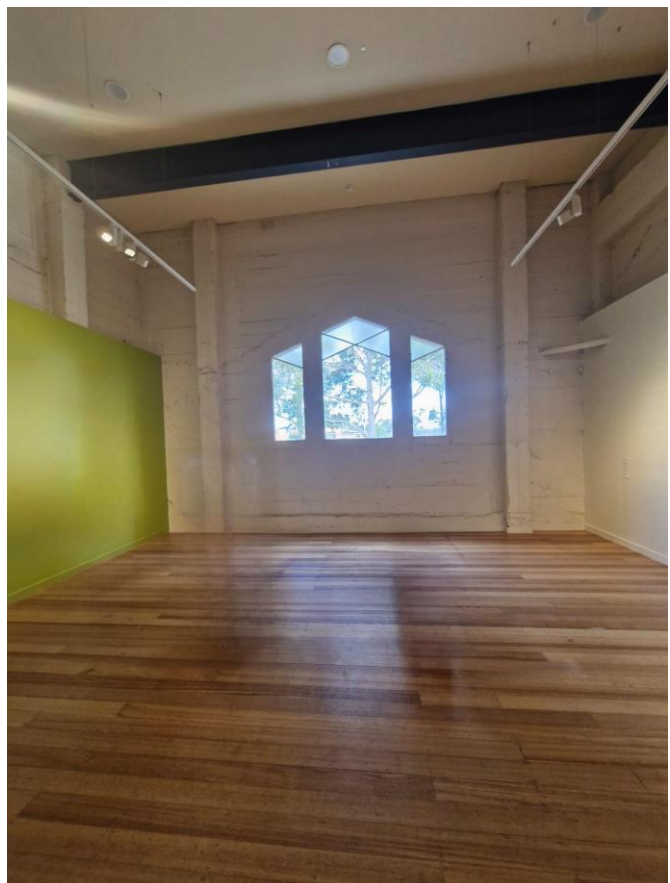

Gallery Foyer - Artist is encouraged to respond to this space with mindful consideration on traffic and movements.

Main Gallery Entrance – the wall pictured on the left of the Gallery Entrance is a move-able wall and can be utilized according to the exhibition design.

Main Gallery Area facing North – the walls pictured on the left of the Gallery is a move-able wall and can be utilized according to the exhibition design.

Main Gallery Area facing South – this area will receive sunlight in certain seasons, sensitive artworks not encouraged to be displayed near the window.
